

THRUST REVERSER TEST/ HYDRAULIC POWER UNIT

**630
Series**

**2 Year
Warranty**

*Compact Mobile Hydraulic Test Unit for Performing
Functional Test of the Thrust Reversers While Isolated
From the Rest of the Aircraft Hydraulic System*

Model 05-630-05

- **Performance Assured 100% Duty Cycle**
 1. Will deliver Maximum Flow @ Maximum Pressure
 2. Industrial Duty Lincoln® Motor
 3. Heavy Duty Motor Oilgear® Piston Pump
- **Operational Warning Lights**
 1. Pressure Filter Condition LED Warning Indicator for Clogged Conditions
 2. Return Filter Condition LED Warning Indicator for Clogged Conditions
- **Panel Mounted Controls for Ease of Operation and Safety**
 1. Complete Pump Flow Adjustment (0-Full GPM)
 2. Complete Pump Pressure Adjustment For Port A and Port B
 3. By-Pass Dump Valve
- **Super Clean Filtration – Industry Leading Filtration Ensures Quality While Increasing Aircraft Component Life and Decreasing Aircraft Filter Changes**
 1. High Efficiency, Non-Bypass Pressure Filter (3 Micron Absolute)
 2. Large Capacity Return Filter (6 Micron Absolute)
- **Instrumentation**
 1. Two Pressure Gauges (For Dual Pressure Range Testing)
 2. Test Quality 4" Pressure Gauge for Port A
 3. Test Quality 4" Pressure Gauge for Port B
 4. High Pressure Dual Scale Pump Outlet Flow Meter (4% Accuracy)
 5. Dual Scale Pyrometer / Oil Temperature Gauge
 6. Hour Meter for Maintenance Scheduling
- **Durable 0.90 Brushed Aluminum Cabinet Construction**
 1. Large Hinged Rear Access Door Provides Convenient Access and Inspection
 2. No Exterior Paint to Fade or Chip with Usage
 3. Guaranteed Not to Rust

THRUST REVERSER TEST/ HYDRAULIC POWER UNIT

*Compact Mobile Hydraulic Test Unit for Performing
Functional Test of the Thrust Reversers While Isolated
From the Rest of the Aircraft Hydraulic System*

Standard Features:

- Current Pressure Gauge and Flow Meter Certificate of Calibration
- High Efficiency Aluminum Oil Cooler with 3 Phase Electric Fan
- Stainless Steel Reservoir (20 gallons)
- Port A and Port B Standard #8 Pressure Hoses, 15 ft. (4.5 m) Long
- Standard 50 ft. (15.2 m) Electrical Input Cable
- Large Hinged Rear Access Door Provides Convenient Access and Inspection
- Easy Access Exterior Fluid Sampling Valve to Meet Quality Parameters
- All Welded .090 Aluminum Construction
- Heavy Duty Welded Frame
- All Electrical Components Installed in Liquid Tight Enclosure (NEMA 4, 12)
- Guaranteed No Leaks, Aluminum Pan Completely Covers Bottom of Unit
- Durable Aluminum, Laser Engraved Placards
- Panel Mounted Operational Instructions
- Easy Maneuvering Ensured with Two Fixed and Two Swivel Castors with Stability Provided by the Heavy Duty Floor Lock

Dimensions: Length 69 in (175 cm), Width 36 in (91 cm), Height 40 in (102 cm)

SPECIFICATIONS:				
SERIES MODEL	PUMP PRESSURE PSI (bar)	MOTOR HP (kw)	MAX PUMP FLOW GPM (lpm)	WEIGHT Lbs. (kg)
05-630-**	450 - 5000 PSI 30 - 340bar	10 HP 7.5 kw	4 GPM 14 lpm	775 lbs 351 kg
05-632-**	450 - 4000 PSI 30 - 272 bar	10 HP 7.5 kw	6 GPM 22 lpm	770 lbs 349 kg
05-634-**	450 - 4000 PSI 30 - 272 bar	20 HP 15 kw	10 GPM 37 lpm	850 lbs 385kg
05-635-**	450 - 5000 PSI 30 - 340 bar	25 HP 19 kw	10 GPM 37 lpm	950 lbs 431kg

**Model by Fluid Type: Mil-H-5606 = 02 Mil-H-83282 = 03 Skydrol = 05
